**A Message of Concern from
Democratic Nominee for District Attorney Seth Williams**

Philadelphia- Over the past few days the already alarming number of shootings in our city has increased by a tremendous amount. On Monday night 6 people were shot and one person killed in a 30 minute time frame. Now is the time that we as a city have to come together and make a difference. This isn't just a North or Southwest Philly problem, it's every Philadelphian's problem. There are too many street corners all over the city covered with balloons and teddy bears for the lives that have been lost. We can change the numbers, but it will take all of us.
